I would like to get an opinion on if a civil service employee that works for the Westwego Fire department. (firefighter or asst. chief) can run for the volunteer fire chief position in the department. (or any other elected position threw the volunteer fire company). If they can run for these positions as an employee for The city of westwego fire department and they are elected to the position as Fire chief. Can the mayor appoint the volunteer fire chief for westwego volunteer fire company to Chief for the fire department?

Also if any employee runs for the Volunteer fire Chief positions and wins and the mayor wants to appoint that person to sit in the fire chief position for the city as a volunteer is that ok?(this is the way its been for a while. But never had an employee run for the volunteer fire chief position.

If you have any questions please contact em 504-717-0993 Chase Bruner.
